

Sound Sculpture.

Beosound Balance is a wireless speaker with a dynamic acoustic performance, designed to be display friendly and inspired by interior objects and the use of soft, appealing and well-curated materials, colours and finishes. Placement up against the wall is ideal for optimal listening, whether from room-filling to focused sound experiences.

IMPORTANT FEATURES

-  Exterior beauty. Forceful sound performance.
-  Different sound modes in one. From room-filling to focused sound.
-  Soft interior silhouette. Honest natural materials.
-  Welcomes you with a human touch.

BASIC

Product dimensions

D x H: 20 x 38 cm

Weight

7.2 kg

Placement

Shelf, side table and other furniture pieces

TECHNICAL

Speaker Drivers

2 x 5,25" woofer drivers
2 x 3" fullrange drivers
2 x 2" full range drivers
1 x 3/4" tweeter

Frequency Range

37 - 23.000 Hz

Power Amplifiers

Non-clipped peak (W)
2 x Class D at 200 W for woofer
4 x Class D at 100 W for full range
1 x Class D at 80 W for tweeter

Features

Active Room Compensation
Sound Directivity
Proximity sensors
Tone touch

Microphones

Yes

CONNECTIVITY

Wireless Networks

Wi-fi/WLAN
802.11 b/g/a/n/ac (2.4 GHz & 5 GHz)
Bluetooth type: 5.0

Voice Assistant

Google Assistant

Connections

It's the perfect balance

between elegant and approachable beauty with character and unspoiled, pure sound performance.

100 words:

Wireless speaker with dynamic acoustic performance, designed to be display friendly. Inspired by interior objects and the use of soft, appealing and well-curated materials, colours and finishes – like natural solid oak wood, seamlessly knitted textiles and precision crafted aluminium components. It's the perfect balance between elegant and approachable beauty with character and unspoiled, pure sound performance. With its unique acoustic configuration of seven drivers, Beosound Balance is designed to deliver a strong bass performance and a broad sound image whether from room-filling to focused sound experiences.

KEY SELLING POINTS

Exterior beauty. Forceful sound performance.

Beosound Balance has been designed with optimized proportions to support a display-friendly placement. It can be placed where it fits your interior best and always delivers a sophisticated sound experience.

When elevated from the floor and placed close to the wall, Beosound Balance delivers carefully controlled beams of sound for a clear acoustic experience from the front and rich sound enhancement at the back.

The result is an impressively big sound experience compared to its size.

Different sound experiences in one. From room-filling to focused sound.

With its unique acoustic configuration of seven drivers, Beosound Balance is made to deliver a strong bass performance and a broad sound image for truly room filling sound. The ability to provide beam forming technology also enables Beosound Balance to deliver sound directivity for focused listening from all positions – all in one package.

Soft interior silhouette. Honest natural materials.

With a shape distinctly broken into two components, Beosound Balance is a luxurious design in an interior object form, with a soft interior silhouette balancing gracefully on a base natural wood. The simplicity of this design, rooted in Scandinavian minimalism, contrasts strongly with its raw, high-performing sound.

Welcomes you with a human touch.

Tactile user-interaction experience and light-through-aluminium for subtle look and a touch of magic with proximity sensors built-in to welcome you when you approach Beosound Balance for interaction – so the controls only appear when needed. When you walk away from Beosound Balance, the controls dim once more leaving only the well-crafted aluminium surface visible.
