

# BEOLAB 19

Wireless subwoofer with powerful impact bass

## A POWERHOUSE WITH STYLE

BeoLab 19 delivers exceptional bass and will enhance the mood and depth of both a stereo and a cinematic experience, while the distinctive lines and dynamic elegance channel the raw impact of its stunning power. To top it off, the freedom of wireless simplicity allows you to find the perfect spot for BeoLab 19 in your home.

FEATURES

- Acoustic Balance Principle**  
Unlike traditional subwoofers, BeoLab 19 remains incredibly still by balancing the vibrations of the two speakers drivers to cancel each other out.
- Room adaptation**  
A three-position switch controls the bass response of the speaker depending on the placement of the speaker in the room.
- Thermal protection**  
The temperature of all driver units is constantly monitored to keep the speaker at top performance all the time.
- Line sense**  
Auto on/off – for connecting non-Bang & Olufsen equipment.
- Connections**
- 1 x Power Link (RJ45)
  - 1 x RCA (L/R)
  - 1 x TOSLINK
  - Wireless Power Link
